Independent Auditor's Report

To the Honorable Mayor and Members of the Town Council Town of Kure Beach, North Carolina

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Kure Beach, North Carolina (the "Town"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Kure Beach, North Carolina as of June 30, 2022, and the respective changes in financial position and cash flows where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Kure Beach, North Carolina and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Audit of the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Kure Beach, North Carolina's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Town of Kure Beach, North Carolina's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Kure Beach, North Carolina's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis; the Local Government Employees' Retirement System - Schedules of the Proportionate Share of the Net Pension Liability, and Contributions as stated in the table of contents, the Law Enforcement Officers' Special Separation Allowance - Schedules of Changes in Total Pension Liability, and Total Pension Liability as a Percentage of Covered Payroll; and the Other Post-Employment Benefits - Schedule of Changes in the Total OPEB Liability and Related Ratios as stated in the table of contents, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

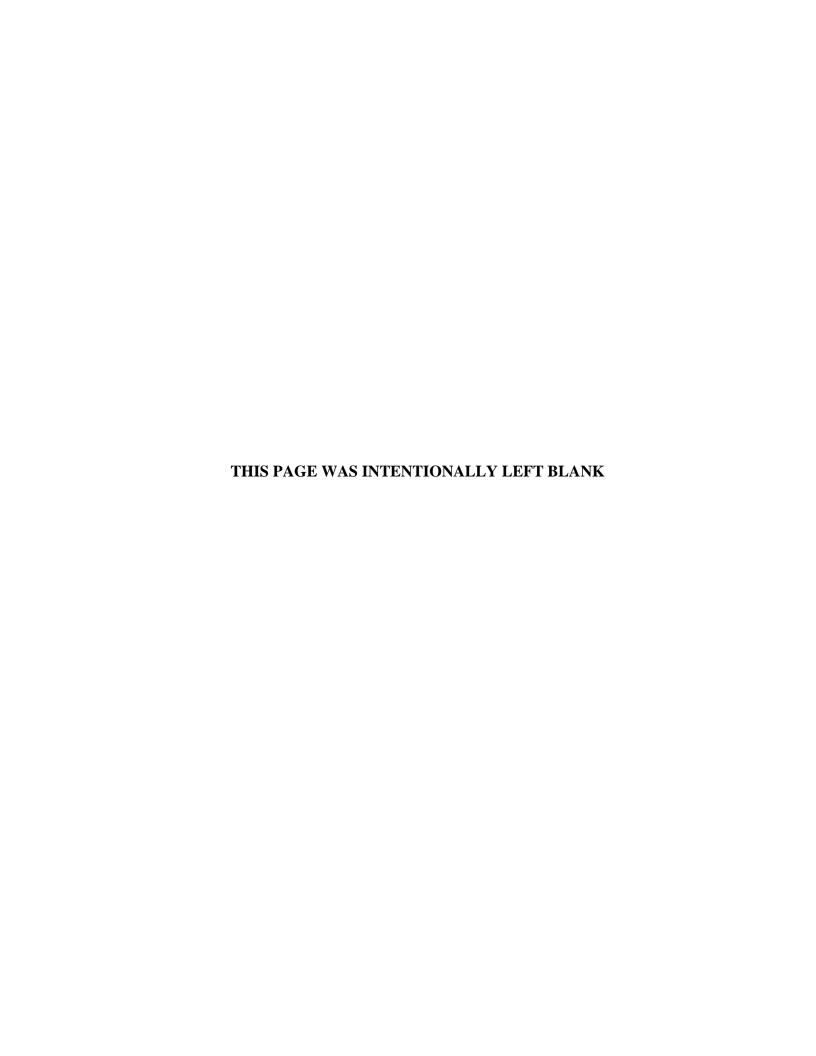

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of Town of Kure Beach, North Carolina. The budgetary schedules and other schedules, as listed on the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary schedules and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the procedures performed as described above, the budgetary schedules and other schedules, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2022 on our consideration of the Town of Carolina Beach, North Carolina's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and on the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Bernard Robinson & Company, J.S.P.

Greensboro, North Carolina October 31, 2022

June 30, 2022

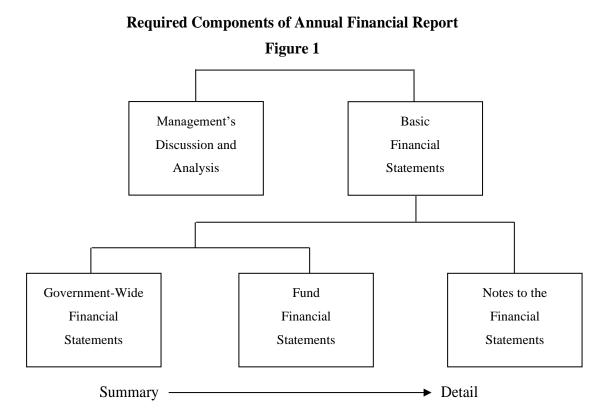

As management of the Town of Kure Beach, North Carolina (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2022. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$20,646,699 (net position).
- The government's total net position increased by \$1,782,491. This increase was attributable to growth in the Town's property tax and sales tax revenue, as well as implementation of a paid parking program.
- As of the close of the current fiscal year, the Town's total governmental funds reported combined ending fund balances of \$7,012,003 with a net increase of \$844,708 in fund balance. This increase is primarily due to an increase in property tax, sales tax, and parking revenue. Approximately 10% of fund balance or \$729,958 is restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$5,053,050 or 72% of total General Fund expenditures for the fiscal year. The combined unassigned and assigned fund balance for the General Fund was \$6,252,572 or 87% of total General Fund expenditures for the fiscal year.
- The Town's total long-term liabilities decreased by \$1,782,344 during the current fiscal year. The key factors in this decrease were a decrease in the net pension liability for the Local Governmental Employees' Retirement System (LGERS), a decrease in the liability for other post-employment benefits and a net decrease in installment purchases.
- The business-type activities net position increased by \$384,182. This was primarily attributable to effective cost management.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Kure Beach, North Carolina's basic financial statements. The Town's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Kure Beach, North Carolina.

Basic Financial Statements

The first two statements (Exhibits 1 and 2) in the basic financial statements are the Government-Wide Financial Statements. They provide both short and long-term information about the Town's financial status.

The next statements (Exhibits 3 through 10) are Fund Financial Statements. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the Town's individual funds. Budgetary information required by the North Carolina General Statutes also can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

June 30, 2022

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include the water and sewer services offered by the Town of Kure Beach.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Kure Beach, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. All of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Kure Beach adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Board; 2) the final budget as amended by the Board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Proprietary Fund - The Town of Kure Beach has one kind of proprietary fund, an Enterprise Fund.

An Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Kure Beach, North Carolina uses an enterprise fund to account for its water and sewer activity. This fund is the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

June 30, 2022

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements immediately follow Exhibit 10 of the audit report.

Other Information - In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information as listed on the table of contents.

Interdependence with Other Entities - The Town depends on financial resources flowing from, or associated with, both the federal government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations.

Restricted	729,958	910,903	-	-	729,958	910,903	
Unrestricted	3,366,964	2,428,958	2,857,885	2,457,277	6,224,849	4,886,235	
Total net position	\$ 12,534,592	\$ 10,752,101	\$ 8,112,107	\$ 7,727,925	\$ 20,646,699	\$ 18,480,026	

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Kure Beach exceeded liabilities and deferred inflows by \$20,646,699 as of June 30, 2022. The Town's net position for governmental activities and business-type activities were \$12,534,592 and \$8,112,107, respectively. The Town's net position increased by \$2,166,673 for the fiscal year ended June 30, 2022. However, the largest portion, \$13,691,892, reflects the Town's net investment in capital assets (e.g., land, buildings, machinery, and

June 30, 2022

equipment); less any related debt still outstanding that was issued to acquire those items. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's net investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town's net position of \$729,958 represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$6,224,849 is unrestricted.

Several particular aspects of the Town's financial operations positively influenced the total governmental net position, notably, the continued diligence in the collection of property taxes by accomplishing a tax collection percentage over 99% and the continued growth in the tax base.

June 30, 2022

Governmental Activities - Governmental activities increased the Town's net position by \$1,782,491, thereby accounting for 82% of the total increase in the net position of the Town. Positive elements affecting net position were an increase in local option sales tax revenue, a strong property tax collection rate over 99%, and the paid parking program.

Business-Type Activities - Business-type activities of the Town reported \$8,112,107 in net position, an increase of \$384,182. The towns' revenues and expenses remained relatively consistent which resulted in another positive increase in net position

Financial Analysis of the Town's Funds

As noted earlier, the Town of Kure Beach uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the Town of Kure Beach. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$5,053,050, while the total fund balance reached \$7,012,003. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 70% of total General Fund expenditures, while total fund balance is 98% of total General Fund expenditures.

At June 30, 2022, the governmental funds of the Town of Kure Beach reported a fund balance of \$7,012,003 with a net increase in fund balance of \$844,708.

General Fund Budgetary Highlights - During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were more than the budgeted amounts primarily because the Town did not expect to receive some of the unrestricted intergovernmental funds that became available. Expenditures were held in check to comply with its budgetary requirements.

Proprietary Fund - The Town's proprietary fund provides the same type of information found in the government-wide statements, but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$2,857,885. Other factors concerning the finances of this fund have already been addressed in the discussion of the Town's business-type activities.

Capital Asset and Debt Administration

Capital Assets - The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2022, totals \$19,838,821(net of accumulated depreciation). These assets include buildings, land, machinery and equipment, park facilities, and vehicles.

June 30, 2022

Major capital asset transactions during the year include the additions of equipment, vehicles and infrastructure. There were no significant demolitions or disposals of capital assets.

June 30, 2022

Outstanding Debt -The Town's total debt decreased by \$1,782,344 (16%) during the current fiscal year. The key factors in this decrease were a net decrease in installment purchases of \$524,665; a decrease of \$834,545 in the net pension liability for the Local Government Employees Retirement System (LGERS); and a \$500,316 decrease in the total OPEB liability; an increase of \$45,747 in the total pension liability for the Law Enforcement Officers Separation Allowance and an increase of \$31,435 in the total compensated absences.

Additional information regarding the Town's long-term debt can be found in the notes to the basic financial statements.

Economic Factors and Next Year's Budgets and Rates

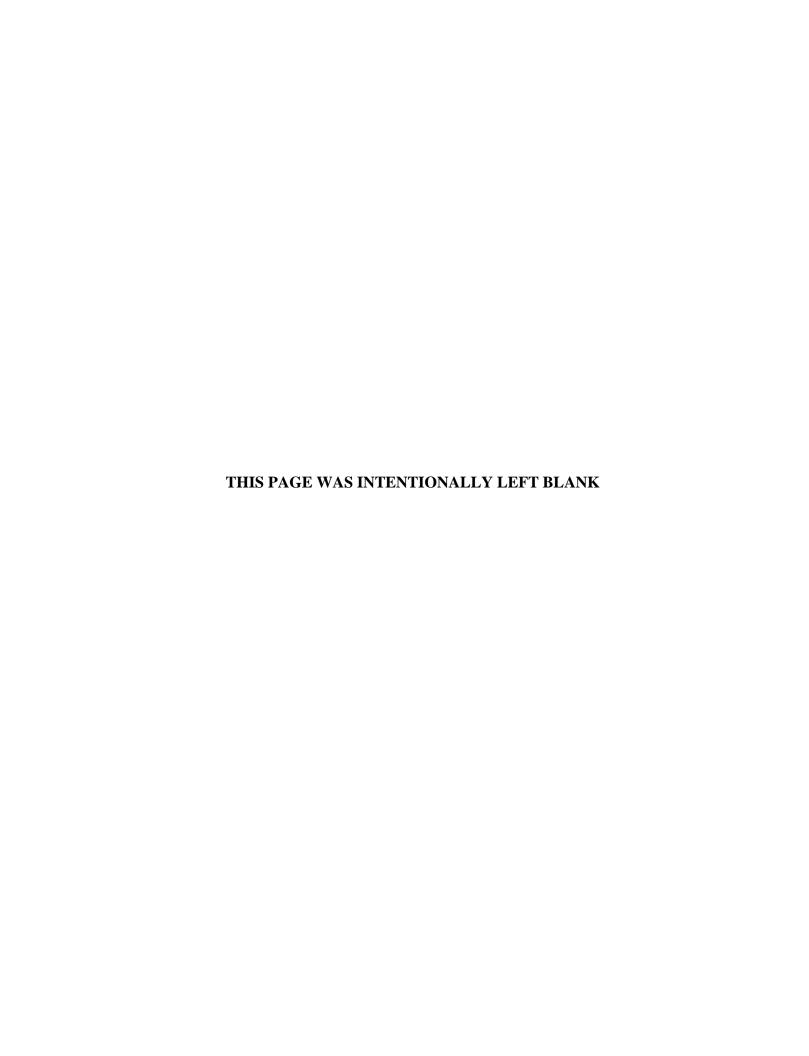

The following key economic indicators reflect the growth and prosperity of the Town.

- Tourism to the Town has continued to increase.
- The Town approved a \$8,440,097 General Fund budget for fiscal year 2022-2023. This budget represents a 26% increase from the fiscal year 2021-2022 original budget.

Requests for Information

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Officer, 117 Settlers Lane, Kure Beach, NC 28449. You can also call (910)458-8216, visit our website www.townofkurebeach.org or send an email to a.copenhaver@townofkurebeach.org for more information.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Kure Beach, North Carolina (the "Town") conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant accounting policies:

Reporting Entity

The Town is a municipal corporation, which is governed by an elected mayor and a four-member council.

Basis of Presentation

Government-Wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category - governmental and proprietary - are presented. The Town has no fiduciary funds to report. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The Town reports the following major governmental funds:

General Fund – This fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Town reports the following major enterprise fund:

Water and Sewer Fund – This fund is used to account for the Town's water and sewer operations. Water and Sewer Capital Projects Fund has been consolidated into the Water and Sewer Fund for financial reporting purposes. The budgeting comparison for the Water and Sewer Capital Projects Fund has been included in the supplemental information.

Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-Wide and Proprietary Fund Financial Statements - The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements - Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year end, except for property taxes. Ad valorem taxes receivable are not accrued as revenue because the amount is not susceptible to accrual. On June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013, and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources. Sales taxes and certain intergovernmental revenues, such as the utilities sales tax, collected and held by the State at yearend on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town because the tax is levied by New Hanover County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

Budgetary Data

The Town's budgets are adopted as required by North Carolina General Statutes. An annual budget is adopted for the General and Enterprise Funds. All annual appropriations lapse at the fiscal year-end. Project ordinances are adopted for the Governmental and Enterprise Capital Projects Fund. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the departmental level for all annually budgeted funds and at the project level for the multi-year funds. The Budget Officer is authorized by the budget ordinance to transfer appropriations within a fund under the following conditions as specified in North Carolina General Statute Chapter 159: amounts between line item expenditures without limitation and without a report being required up to \$10,000 at any one time; amounts within departments and of the same fund and reported as part of the financial statements and shall make an official report immediately to Town Council on such transfers; and may not transfer amounts between funds without prior Town Council action.

Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Fund Equity

Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by the State law (G.S. 159-31). The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit. State law (G.S. 159-30(c)) authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high-quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust ("NCCMT"). The Town's investments are reported at fair value. The NCCMT Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Because the NCCMT Government Portfolio has a weighted average maturity of less than 90 days, it is presented as an investment with a maturity of less than 6 months.

Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

Restricted Cash

Restricted cash recorded in the Governmental Funds, General Fund and Capital Projects Fund represent unexpended Powell Bill, Federal Asset Forfeiture, and unspent State Capital and Infrastructure Fund (SCIF) grant proceeds of \$43,138, \$111,272, and \$250,000, respectively. Restricted cash recorded in the Enterprise Fund, Water and Sewer Fund represent Customer Deposits and Unearned Grant Revenue of \$16,360 and \$334,396. The funds are restricted, because their use is completely restricted to the purpose for which the grant or contribution was issued or given.

Ad Valorem Taxes Receivable

In accordance with State law (G.S. 105-347 and G.S. 159-13(a)), the Town levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2021. As allowed by State law, the Town has established a schedule of discounts that apply to taxes which are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

Allowance for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years. At year end, the Town believes that receivables are fully collectable.

Lease Receivable

The Town's lease receivable is measured at the present value of lease payments expected to be received during the lease term. A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Capitalization cost for the Town's assets is \$5,000. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets received prior to June 30, 2015, are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015, are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital assets of the Town are depreciated on a class life basis at the following rates:

Asset Class	Estimated Useful Lives
Furniture and office equipment	10 years
Maintenance and construction equipment	5 years
Medium and heavy motor vehicles	5 years
Automobiles and light trucks	5 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element called deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as expense or expenditure until then. The Town has the following items that meet this criterion, deferrals of pension and OPEB deferrals. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflow of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has three items that meet the criterion for this category – property taxes receivable, pension and OPEB deferrals.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences

Vacation leave is accumulated at the rate of up to twenty-seven (27) days per year with each leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded within the funds as the leave is earned. The Town has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Town's sick leave policies provide for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

Net Position/Fund Balances

Net Position - Net position in the government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or b) imposed by law through State statutes.

Fund Balances

In the governmental fund financial statements, fund balance is composed of four classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Leases – portion of fund balance that is not an available resource because it represents the yearend balance of the lease receivable in excess of the deferred inflow of resources for the lease receivable, which is not a spendable resource.

Restricted Fund Balance - This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State statute (RSS) is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as non-spendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet. At year end, restricted for stabilization by state statue was \$580,548.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Restricted for Streets - Powell Bill - portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds. At year end, restricted for streets – Powell Bill was \$38,138.

Restricted for Federal asset forfeiture - portion of fund balance that is restricted by Federal regulations. This amount represents the balance of total unexpended federal asset forfeiture funds received by the Town. At year end, restricted for Federal asset forfeiture was \$111,272.

Assigned Fund Balance – portion of fund balance that the Town intends to use for specific purposes.

Assigned for Beach Protection – portion of fund balance that has been budgeted by Town Council for beach related expenditures.

Assigned for Stormwater – portion of fund balance that has been budgeted by Town Council for maintenance and improvement of the Town's stormwater system.

Unassigned Fund Balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-Town funds, Town funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly, unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Town.

The Town has also adopted a minimum fund balance policy for the General Fund which instructs management to conduct the business of the Town in such a manner that an unrestricted fund balance in the Governmental Funds of no less than 32% of the total projected expenditures be maintained. Unrestricted fund balance is the total of all committed, assigned and unassigned fund balance, as reported in the Annual Financial Report. Unrestricted fund balance in excess of 32% is available for general appropriation during the budget year as approved by the Town Council. Restricted fund balances only can be used, by authorization of the Town Council, for the purposes for which they were externally restricted. At the end of the fiscal year, after the annual audit is complete and financial statements have been reported, the Town Council may, at its discretion, credit any unrestricted fund balance in excess of 75% of the subsequent year's total expenditures, to a capital reserve fund. This designation will be done by formal resolution of the Town Council. If a catastrophic, economic or natural event occurs that requires a 25% or more deviation from the total budgeted revenues or expenditures, the unrestricted fund balance can be reduced below 32% of the total projected expenditures by Town Council action. In such an event, the Town Council shall develop a recovery plan to rebuild the fund balance within 36 months of the current fiscal year end.

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Kure Beach, North Carolina's employer contributions are recognized when due and the Town of Kure Beach, North Carolina has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

NOTE 2 – DETAIL NOTES ON ALL FUNDS

A. Assets

Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agents in their names. The amount of the pledged collateral is based on an approved averaging method for non-interest-bearing deposits and the actual current balance for interest-bearing deposits.

Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2022, the Town's deposits had a carrying amount of \$8,885,303 and a bank balance of \$9,347,224. Of the bank balance, \$500,000 was covered by federal depository insurance and the remainder was covered by collateral under the pooling method. The Town's petty cash fund totaled \$200.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

Investments

The Town's investment balance was as follows:

Valuation	
Measurement	
Mathad	Dool

Investment Type	Method	Book Value	Maturity	Rating
NC Capital Management Trust	-			
Government Portfolio	Fair Value - Level 1	\$ 1,709,429	N/A	AAAm
		\$ 1,709,429		

All investments are measured using the market approach: using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets.

Level of fair value hierarchy: Level 1: debt securities valued using directly observable, quoted prices (unadjusted) in active markets for identical assets.

Interest Rate Risk - The Town has no formal investment policy regarding interest rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Town's internal investment policy limits the Town's investment portfolio to maturities of 12 months or less.

Credit Risk – The Town has no formal policy regarding credit risk but has internal management procedures that limits the Town's investments to the provisions of G.S. 159-30 and restricts the purchase of securities to the highest possible ratings whenever particular types of securities are rated. The Town's investment in the NC Capital Management Trust Government Portfolio carried a credit rating of AAAm by Standard & Poor's and AAAm-mf by Moody's Investors Service as of June 30, 2022.

Custodial credit risk – For an investment, the custodial risk is the risk that in the event of the failure of the counterparty, the Town will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Town has no formal policy on custodial credit risk, but management procedures are that the Town shall utilize a third-party custodial agent for book entry transactions, all of which shall be held in the Town's name. At year end, the Town did not have any uninsured or unregistered investments that were not in the Town's name.

Receivables

Governmental activities – General Fund receivables of \$1,711,833 consist of \$199,657 for customer accounts; \$34,965 for taxes and related accrued interest; \$1,096,320 for leases; and \$380,891 due from other governments. Business-Type activities – Water and Sewer Fund receivables of \$400,526 consist entirely of customer accounts. Based on historical experience an allowance for doubtful accounts has not been established.

Lease Receivables

In April 1996, the Town entered into a lease with AT&T for 30 years. Leasing a parcel of land for placement of a cell tower, with payments to be made on the first of each month. Payments increase 3% on the anniversary of the lease. The lease receivable is measured as the present value of the future lease payments expected to be received during the lease term at a discount rate of 3%.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

In August 2000, the Town entered into a lease with US Cellular for 45 years. Leasing a parcel of land for placement of a cell tower, with payments to be made on the first of each month. Payments increase 3% on the anniversary of the lease. The lease receivable is measured as the present value of the future lease payments expected to be received during the lease term at a discount rate of 3%.

In February 2006, the Town entered into a lease with Verizon Wireless for 30 years. Leasing a parcel of land for placement of a cell tower, with payments to be made on the first of each month. Payments increase 3% on the anniversary of the lease. The lease receivable is measured as the present value of the future lease payments expected to be received during the lease term at a discount rate of 3%.

In fiscal year 2022, the Town recognized \$77,364 of lease revenue and \$30,744 of interest revenue. Future lease payments are report in the following table

Year Ending June 30	Principal		 Interest
2023	\$	48,800	\$ 32,227
2024		52,749	30,709
2025		56,892	29,070
2026		56,045	27,311
2027		33,935	25,995
2028-2032		215,417	112,301
2033-2038		258,619	74,424
2039-2044		205,636	41,745
2045-2046		168,226	8,451

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities

Pension Plan and Postemployment Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town of Kure Beach is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and the State Superintendent, who serve as exofficio members. The Local Governmental Employees' Retirement System is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age or have completed 15 years of service as a LEO and have reached age 50 or have completed five years of creditable service as a LEO and have reached age 55 or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town of Kure Beach employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Town of Kure Beach's contractually required contribution rate for the year ended June 30, 2022, was 12.04% of compensation for law enforcement officers and 11.51% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Kure Beach were \$340,488 for the year ended June 30, 2022.

Refunds of Contributions - Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions, or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

On June 30, 2022, the Town reported a liability of \$616,812 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. The total pension liability was then rolled forward to the measurement date of June 30, 2021, utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. On June 30, 2021 (measurement date), the Town's proportion was 0.04022%, which was a decrease of 0.00038% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Town recognized pension expense of \$265,129. On June 30, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred	
	Outflows of		Inflows of		
	Resources		Resources		
Differences between expected and actual experience	\$	196,230	\$	-	
Changes of assumptions		387,516		-	
Net difference between projected and actual earnings					
on pension plan investments		204,162		1,085,402	
Changes in proportion and differences between Town					
contributions and proportionate share of contributions		11,043		26,835	
Town contributions subsequent to the measurement date		340,488			
	\$	1,139,439	\$	1,112,237	

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

\$340,488 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ending June 30, 2023.

Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2023	\$ 53,250
2024	(21,512)
2025	(75,358)
2026	 (269,666)
	\$ (313,286)

Actuarial Assumptions: The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increase, including inflation and	
productivity factor	3.50 to 8.10%
Investment rate of return, net of pension	
plan investment expense, including inflation	7.00%

The plan currently uses mortality tables that vary by age, gender, employee group (i.e., general, law enforcement officer) and health status (i.e., disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of an actuarial experience study for the period January 1, 2010, through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns, and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2021 are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Fixed income	29.0%	1.4%
Global equity	42.0%	5.3%
Real estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation protection	6.0%	4.0%
	100.0%	

The information above is based on 30-year expectations developed with the consulting actuary for the 2020 asset, liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate: The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.50%, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) than the current rate:

	1%	Discount	1%
	Decrease	Rate	Increase
	(5.50%)	(6.50%)	(7.50%)
Towns' proportionate share of the			
net pension liability (asset)	\$ 2,394,414	\$ 616,812	\$ (846,051)

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report for the State of North Carolina.

b. Law Enforcement Officers Special Separation Allowance

Plan Description

The Town of Kure Beach, North Carolina administers a public employee retirement system (the *Separation Allowance*), a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full-time Town law enforcement officers are covered by the Separation Allowance. On December 31, 2020, the Separation Allowance's membership consisted of:

Retirees receiving benefits	1
Active plan members	12
	13

Summary of Significant Accounting Policies

Basis of Accounting: The Town has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the criteria which are outlined in GASB Statement 73.

Actuarial Assumptions

The entry age normal actuarial cost method was used in the December 31, 2020, valuation. The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases, including inflation and productivity factor	3.25 to 7.75%
Discount rate	2.25%

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2020.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

Mortality rates use Pub-2010 amount – weighted tables. All mortality rates are projected from 2010 using generational improvement with Scale MP-2019.

Contributions

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Town's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$20,758 as benefits came due for the reporting period.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

On June 30, 2022, the Town reported a total pension liability of \$555,820. The total pension liability was measured as of December 31, 2021, based on a December 31, 2020, actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2021, utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2022, the Town recognized pension expense of \$86,959.

	Deterred Outflows		Deter	red Inflows
	of	Resources	of R	Resources
Differences between expected and actual experience	\$	52,002	\$	-
Changes of assumptions		117,948		17,037
Benefit payments and administrative costs made				
subsequent to the measurement date		10,379		
Total	\$	180,329	\$	17,037

\$10,379 paid as benefits came due subsequent to the measurement date have been reported as deferred outflows of resources and will be recognized as a decrease of the total pension liability in the year ending June 30, 2023.

Other amounts reported as deferred inflows and outflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2023	\$ 40,219
2024	38,171
2025	35,568
2026	33,953
2027	3,849
Thereafter	 1,153
	\$ 152,913

Sensitivity of the Town's total pension liability to changes in the discount rate. The following presents the Town's total pension liability calculated using the discount rate of 2.25 percent, as well as what the Town's total pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.25 percent) or 1-percentage-point higher (3.25 percent) than the current rate:

		1%		Discount		1%	
	Ι	Decrease (1.25%)		Decrease Rate		Increase	
	((2.25%)		(3.25%)	
Total pension liability	\$	607,895	\$	555,820	\$	508,002	

Schedule of Changes in Total Pension Liability Law Enforcement Officers' Special Separation Allowance

Beginning balance	\$ 510,073
Service cost	32,614
Interest on the total pension liability	9,644
Differences between expected and actual	
experience in the measurement of the total	
pension liability	40,440
Changes of assumptions or other inputs	(16,193)
Benefit payments	(20,758)
Ending balance of the total pension liability	\$ 555,820

The plan currently uses mortality tables that vary by age, and health status (i.e., disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study completed by the actuary for the Local Governmental Employee's Retirement system for the five year period ending December 31, 2019.

<u>Total Expense, Liabilities, and Deferred Outflows and Inflows of Resources of Related to Pensions</u>

Supplemental Retirement Income Plan for Law Enforcement Officers and Other Employees

Plan Description: The Town contributes to the Supplemental Retirement Income Plan ("Plan"), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers and other employees employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy: Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to 5.00% of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers, and other employees may make voluntary contributions to the plan. Contributions for the year ended June 30, 2022 were \$195,427, which consisted of \$138,401 from the Town and \$57,026 from the law enforcement officers and other employees.

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

Other Postemployment Benefits (OPEB)

Healthcare Benefits

Plan Description: Under the terms of a Town resolution, the Town administers a single employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides postemployment healthcare benefits to retirees of the Town, provided they participate in the North Carolina Local Governmental Employees' Retirement System ("System"), have at least fifteen years of creditable service with the Town and were originally hired before February 7, 2019. The Town pays a percentage of the cost of coverage based upon the number of years of service for these benefits through private insurers. The Town Council may amend the benefit provisions. A separate report was not issued for the plan.

	Date Hired							
Retired Employees' Years								
of Creditable Service	Pre - February 7, 2019	On or After February 7, 2019						
Less than 15 years	Not eligible for coverage	Not eligible for coverage						
15-19 years	50% of coverage paid for by Town	Not eligible for coverage						
20+ years	100% of coverage paid for by Town	Not eligible for coverage						

Membership of the Retiree Health Plan consisted of the following on June 30, 2021, the date of the latest actuarial valuation:

Retirees receiving benefits	10
Active plan members	39
	49

Total OPEB Liability

The Town's total OPEB liability of \$2,002,177 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.5%
Salary increases, including wage inflation	
General employees	3.25 to 8.41%
Law enforcement officers	3.25 to 7.90%
Discount rate	2.16%
Healthcare cost trend rates	
Pre-medicare	7.0% for 2021 decreasing to ultimate
	rate of 4.5% by 2031
Medicare	5.125% for 2021 decreasing to ultimate
	rate of 4.5% by 2024

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

The discount rate is based on the yield of the June average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by The Bond Buyer.

Changes in the Total OPEB Liability

Changes for the year	
Service cost	\$ 161,883
Interest	58,309
Differences between expected and actual experience	(751,973)
Changes in assumptions or other inputs	83,653
Benefit payments	(52,188)
Net changes	(500,316)
Balance, beginning	2,502,493
Balance, ending	\$ 2,002,177

Changes in assumptions and other inputs reflect a change in the discount rate from 2.21% to 2.16%.

Mortality rates were based on the PUB-2010 mortality tables, with adjustments for LGERS experience and generational mortality improvements using Scale MP-2019.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period January 2015 through December 2019.

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.16 percent) or 1-percentage-point higher (3.16 percent) than the current discount rate:

	 1 % Decrease	Discount Rate (2.16%)		1% Increase		
Total OPEB liability	\$ 2,390,458	\$	2,002,177	\$	1,697,516	

Sensitivity to the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	 1 % Decrease	Discount Rate		 1% Increase
Total OPEB liability	\$ 1,646,302	\$	2,002,177	\$ 2,475,304

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the Town recognized OPEB expense of \$129,145. On June 30, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Defer	red Outflows	Defe	rred Inflows
	of	Resources	of	Resources
Differences between expected and actual experience	\$	-	\$	809,377
Changes of assumptions		471,032		138,223
Benefit payments and administrative costs made				
subsequent to the measurement date		39,799		
Total	\$	510,831	\$	947,600

\$39,799 reported as deferred outflows of resources related to OPEB resulting from benefit payments made and administrative expenses incurred subsequent to the measurement date will be recognized as a decrease of the total pension liability in the year ending June 30, 2023. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2023	\$ (91,047)
2024	(91,047)
2025	(87,684)
2026	(61,126)
2027	(47,379)
Thereafter	 (98,285)
	\$ (476,568)

Other Employment Benefits

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by

Notes to Financial Statements

NOTE 2 - DETAIL NOTES ON ALL FUNDS (Continued)

the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

The Town also provides all active full-time employees with group term life insurance. The death benefit associated with this coverage is \$10,000.

Long-Term Obligations

Installment Purchases

The Town has entered into the following installment purchase contracts:

Serviced by the General Fund:

\$3,600,000 loan on December 19, 2007 to acquire the land for Ocean Front Park due in annual installments ranging from \$84,349 to \$67,682 including interest through December 19, 2027; interest at 4.28 percent	\$ 389,423
\$347,000 loan on July 12, 2011 to finance development of Ocean Front Park due in annual installments ranging from \$27,580 to \$21,308 including interest through July 12, 2028; interest at 4.39 percent	142,882
\$409,471 loan on March 12, 2015 to acquire land on 4th Street and H Avenue due in annual installments ranging from \$45,025 to \$41,967 including interest through March 12, 2025; interest at 2.49 percent	122,841
\$4,400,000 of a \$5,000,000 loan on December 11, 2017 to finance renovations of fire station and town hall due in semi-annual installments ranging from \$190,182 to \$148,559 including interest through December 11, 2032; interest at 2.58 percent	3,080,000
\$233,412 loan on October 30, 2018 to finance equipment and vehicle due in annual installments of \$51,346 including interest through October 30, 2023; interest at 3.26 percent	97,879
\$29,858 of a \$102,342 loan on September 26, 2019 to finance a vehicle due in annual installments of \$7,874 including interest through September 26, 2023; interest at 2.14 percent	14,073
\$125,000 loan on June 2, 2020 to finance fuel tank due in annual installments of \$26,199 including interest through June 2, 2025; interest at 1.56 percent	76,130

At June 30, 2022, the Town of Kure Beach, North Carolina had a legal debt margin of \$94,325,199.

Deferred Outflows and Inflows of Resources

The Town has several deferred outflows of resources, which is comprised of the following at year end:

	~	atement of et Position
Benefit payments and administrative expenses for plans		
made subsequent to measurement date	\$	390,666
Changes in assumptions		976,496
Differences between expected and actual		
experience		248,232
Net difference between projected and actual earnings		
on pension plan investments		204,162
Changes in proportion and difference between		
employer contributions and proportionate share		
of contributions		11,043
	\$	1,830,599

Deferred inflows of resources are comprised of the following at year end:

	St	tatement of	G	eneral Fund
	N	et Position	Ba	alance Sheet
Tax receivables	\$	-	\$	34,965
Lease receivables		1,066,847		1,066,847
Changes in assumptions		155,260		-
Differences between expected and actual				
experience		809,377		=
Net difference between projected and actual earnings				
on pension plan investments		1,085,402		-
Changes in proportion and difference between				
employer contributions and proportionate share				
of contributions		26,835		-
Total	\$	3,143,721	\$	1,101,812

C. Fund Balance

The following schedule provides management and citizens with information on the portion of General Fund that is available for appropriation:

Total fund balance - General Fund	\$ 7,012,003
Less:	
Stabilization by State Statute	580,548
Streets- Powell Bill	38,138
Federal Asset Forfeiture	111,272
Assigned	1,199,522
Fund Balance Policy	2,700,831
Remaining Fund Balance	\$ 2,381,692

The Town's entire amount of unassigned general fund balance is available for appropriation. The Town has adopted a minimum fund balance policy for the General Fund which instructs management to conduct the business of the Town in such a manner that unrestricted fund balance in the Governmental Funds is at least 32% of total projected expenditures.

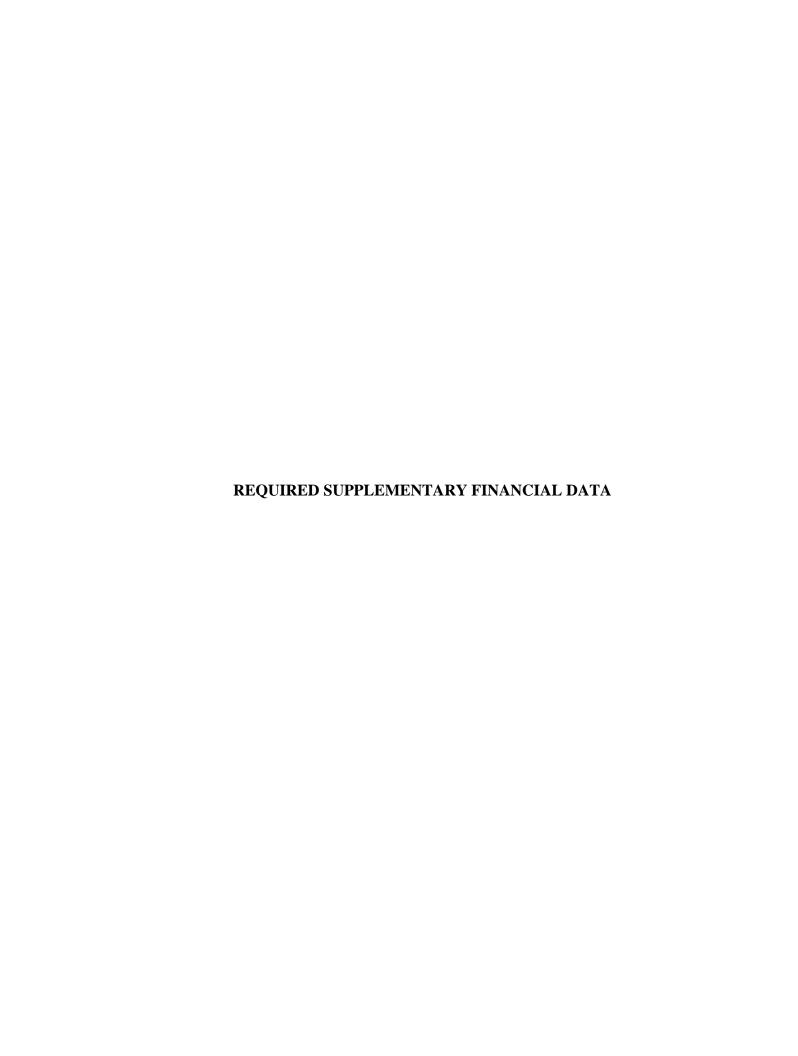

D. Risk Management

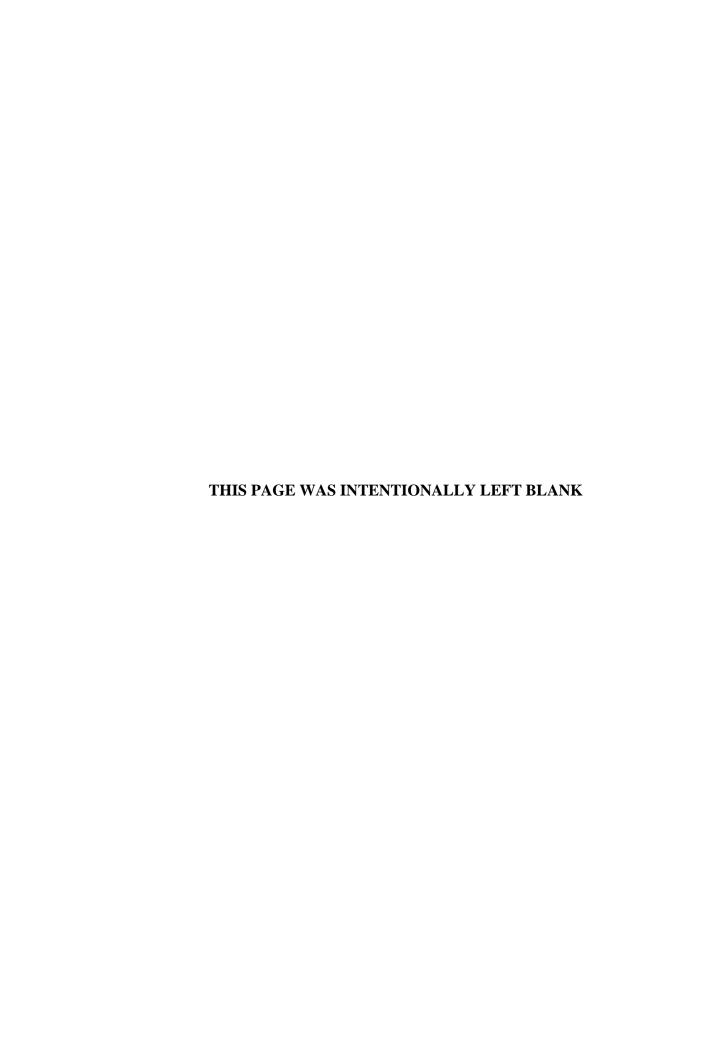

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates in 2 self-funded risk financing pools administered by the NC League of Municipalities. Through these pools, the Town obtains general liability and auto liability coverage of \$2 million per occurrence, property coverage up to the total insurance values of the property policy, and workers' compensation coverage up to the statutory limits. The liability and property exposures are reinsured through commercial carriers for claims in excess of retentions as selected by the Board of Trustees each year. Specific information on the limits of the reinsurance, excess and stop loss policies purchased by the Board of Trustees can be obtained by contacting the Risk Management Services Department of the NC League of Municipalities.

The pools are audited annually by certified public accountants, and the audited financial statements are available to the Town upon request.

In accordance with G.S. 159-29, Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer is individually bonded for \$50,000. The remaining employees that have access to funds are under a blanket bond for \$25,000.

The Town carries flood insurance through NCLM-Interlocal Risk Financing Fund of NC. The Town carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Mayor and Members of the Town Council Town of Kure Beach, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial statement audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, and each major fund, and the aggregated remaining fund information of the Town of Kure Beach, North Carolina (the "Town") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated October 31, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
